

THE 7 REQUIREMENTS CHEAT SHEET

Every standard for your first ring muscle up. Tick the level you can do today, clean.

HOW TO USE IT

Work down in order. The first row where you cannot tick MINIMUM is your main block. Train that first.

	MINIMUM	GOOD	IDEAL
1 False Grip Lean Back Rows Your foundational false grip pulling pattern	☐ 5 clean reps	☐ 8 clean reps	☐ 10 clean reps
2 False Grip Hang Tolerance Grip retention and wrist tolerance under load	☐ 10 sec hold	☐ 15 to 20 sec	☐ 30 sec hold
3 False Grip Lean Back Pull Ups Pulling strength through the muscle up angle	☐ 3 clean reps	☐ 5 clean reps	☐ 8 to 10 reps
4 Top Pull Isometric Hold The highest pull position before the turnover	☐ 2 sec at chest	☐ 3 sec at chest	☐ 5+ sec at chest
5 Deep Ring Dip Capacity Pressing strength out of transition depth	☐ 1 clean rep	☐ 2 to 3 reps	☐ 5 clean reps
6 Assisted Transition Mechanics Turnover path, ring proximity and symmetry	☐ Smooth, clear assist	☐ Smooth, less assist	☐ Very light assist
7 Controlled Reverse Rep Full eccentric ownership of the pattern	☐ 1 controlled rep	☐ 2 controlled reps	☐ 3 controlled reps

BEFORE THE 7: YOUR FOUNDATION

These standards assume a base of 10 clean strict pull ups and 5 clean ring dips, pain free. Not there yet? That is your main block, and it is the fastest single thing you can train. Build the base, then come back to this sheet and watch several rows move at once.
